Vitamin - Wikipedia
A vitamin is an organic molecule (or a set of molecules closely related chemically, i.e. vitamins) that is an essential micronutrient which an organism needs in small quantities for the proper functioning of its metabolism. Essential nutrients cannot be synthesized in the organism, either at all or not in sufficient quantities, and therefore must be obtained through the diet.

Impacted Ear wax | Cedars-Sinai
A build up of ear wax is called impacted ear wax. It can cause symptoms such as hearing loss. Impacted ear wax is very common. With age, ear wax tends to become harder and less mobile. Older adults are more likely to have problems with excess ear wax.

Moulage - Wikipedia
A comprehensive book monograph on moulages is "Diseases in Wax: the History of Medical Moulage" by Thomas Schnalke (Author) the director of the Charite Museum and Kathy Spatschek (Translator). In the 19th century moulage was taken of medical patients for educational purposes. The prepared model was painted to mimic the original disease.

Ear Wax Removal for Blockage & Buildup | MinuteClinic
Ear wax protects the ear from damage and infections. But when it builds up too much, it can cause pain, dizziness or problems hearing clearly. Ear wax blockages are common, especially for people who use cotton swabs or hearing aids. Our practitioners can assess your ear and use safe methods to remove excess wax.

Inherited Diseases: Types, Causes and Symptoms
Aug 02, 2019 - Inherited diseases which are otherwise known as genetic disorders are diseases that occur as a result of an abnormality in the genetic makeup of an individual. Generally, every individual is made up of genes and these genes carry an individuals identity and makeup.

10 Rare Skin Diseases - Verywell Health
Feb 10, 2021 - A history of autoimmune diseases, such as myasthenia gravis, systemic lupus erythematosus, or thymoma use of certain medications: Chelating agents, such as penicillamine, ACE inhibitors, nonsteroidal anti-inflammatory drugs (NSAIDs), such as aspirin, antibiotics, such as penicillin, anti-seizure medications, such as phenobarbital, and

10 Rare Skin Diseases - Verywell Health
Feb 10, 2021 - A history of autoimmune diseases, such as myasthenia gravis, systemic lupus erythematosus, or thymoma use of certain medications: Chelating agents, such as penicillamine, ACE inhibitors, nonsteroidal anti-inflammatory drugs (NSAIDs), such as aspirin, antibiotics, such as penicillin, anti-seizure medications, such as phenobarbital, and

Dermatomyositis - NORD (National Organization for Rare Diseases)
The symptoms often wax and wane for no apparent reason. The major symptom of the disorder is muscle weakness, most often affecting the trunk and muscles closest to the trunk (i.e., proximal muscles), such as the hips, thighs, shoulders, upper arms, and neck.

Diseases of Llamas and Alpacas - Exotic and Laboratory Medicine
Papules progress to plaques and then large areas of thickening and crusting. Lesions are most common in the less densely haired areas of the perineum, ventral abdomen, inguinal region, medial thighs, axilla, and medial forearms, but the face may also be involved. The clinical signs may wax and wane. Diagnosis is by analysis of affected skin biopsy.

Viral Diseases of Pet Birds - Exotic and Laboratory Medicine
A presumptive diagnosis can be made based on history, clinical signs, and radiographic evaluation. Survey films, radiographs of the GI tract with contrast, and fluoroscopy can aid in diagnosis. The proventriculus is often severely dilated. Contrast studies often reveal delayed transit times throughout the GI tract.

Ear, Nose & Throat (ENT) | Cleveland Clinic
How are these diseases diagnosed? The first step in diagnosis is a thorough history and physical examination. It is important to provide information to your doctor regarding respiratory illnesses, nasal or sinus symptoms, history of trauma, other medical conditions, and medication use. Ear Wax Impaction (Cerumen) What is cerumen impaction

Impact of climate change on human infectious diseases
Jan 01, 2016 - Water-borne diseases may become prevalent in some regions if climate change continues to cause shortages of clean surface water. The territorial expansion of the risk for malaria and other tropical diseases has a great potential to reach southern Europe (Semenza and Menne, 2009). 4. Extreme weather events and infectious diseases

Reactive Arthritis - NORD (National Organization for Rare Diseases)
Blurred vision and photophobia are more common with uveitis. Eye symptoms may occur early in the course of reactive arthritis. In some cases, symptoms may come and go during the duration of the disease (wax and wane). General, vague symptoms that can be associated with many different diseases may also occur in individuals with reactive arthritis.

RACGP - Ear wax management
Cerumen impaction (also known as ear wax) is a common presentation to a general practitioner (GP). Ear syringing is often the treatment of choice, and most GPs see a minimum of two patients per week for ear syringing. It is considered by most to be effective and safe. However, 1 in 1000 patients experience major complications following syringing. 1 As a consequence, one in five ...
